WINE WITH PERSONALISED OR BACK LABELS

If you have ordered any personalised wines or special labels please ensure that you are planning to travel after the advised availability date.

COLLECTING YOUR WINE

The collection point is a warehouse belonging to the firm MT Manut. They have a dedicated WineShare collection point that is staffed by English speaking French people. Do not head for their general entrance, please follow the directions overleaf.

Please follow the guidelines below to ensure a successful collection of your wine:

1. As soon as you decide on your collection date, please advise the Dorking office by phone, fax or email **BEFORE MAKING YOUR TRAVEL BOOKING** at least one week in advance, for confirmation that the wine will be available.
2. Make sure you tell us **all the wine orders** (with their invoice reference) that you wish to collect. This will ensure that your wines will be prepared and ready for collection; the warehouse will not release wines unless we have notified them in advance.
3. All orders must be paid in full before you collect the wine and you should take the invoice(s) with you as proof of your identity. Wine will not be given out if you do not have your invoice. A Web Order Confirmation is not an invoice.
4. Please make sure that you carefully check your order and count your cases as they are loaded into your vehicle, before signing for them.

STORAGE

Your wine will be stored in the warehouse free of charge for six months from the date of the accompanying invoice. If your order is not collected during this time there will be a small storage charge. This will be £3 per case, for the period between seven and twelve months after the invoice date. Any wine uncollected after twelve months will incur a further £6 per case storage charge.
